

Dear Business Partner,

First of all : Best wishes for a happy and successful New Year !

Ahad Mahootchi, MD was interviewed by EyeWorld during the AAO, and is now featured on EyeWorld's website.

Dr. Mahootchi is a comprehensive physician practicing in Florida. He performs 577 nm MicroPulse for the treatment of glaucoma (MLT) and multiple retinal disorders. He also uses the Cyclo G6!

He does a nice job talking about MicroPulse, the difference between MicroPulse and CW, where MicroPulse fits within his practice, and how MicroPulse has reduced the number of and frequency of anti-VEGF injections.

We'll get a link to this posted on our Facebook page and website. In the meantime, here it is for your viewing pleasure: <http://ewreplay.org/content/aao-2015?v=4614588314001>

Please feel free to share the above link with your prospective customers.

Best regards

Franz
